

ScanPro All-In-One Microfilm Scanners

Read. Scan. Print. Convert.

The microfilm revolution is here. Whether you need a low-cost option or the top-of-the-line microfilm scanner, we have the universal solution that's just right for you. See the difference with our award-winning scanners that offer exclusive features and innovative technology only available through e-ImageData. Our ScanPro® product line has been specifically designed to meet not only your current application needs but your future needs as well — making it the only microfilm scanner you will ever have to buy.

MEET THE CURRENT SCANPRO ALL-IN-ONE MODELS

Select the ScanPro model that has the features and solutions to meet your expectations.

ScanPro 2200 All-In-One

The most popular replacement for old reader/printers. Not only is the ScanPro 2200 All-In-One™ the most budget-friendly scanner on the market, the 2200 All-In-One has all the necessary features needed to read, scan, print and convert your film collections. If budget is a concern, the 2200 All-In-One is the affordable solution.

ScanPro 3000 All-In-One

This top-of-the-line solution encompasses all of our exclusive features including the 26 megapixel camera* that provides the clearest images in the industry. If you're looking for the most precise images available, the ScanPro 3000 All-In-One is for you.

ScanPro i9300 All-In-One

Got Blips? The ScanPro i9300 All-In-One is the best solution to handle your blipped film collection. It features the same 26 megapixel camera* as the 3000 All-In-One which means it produces the clearest image on the market. And, it can handle your entire film collection!

The ScanPro 3000 is a miracle product!

— Cleveland Public Library

I would recommend the AUTO-Carrier to any entity who has a need and a desire to get the best possible product on the market.

— Jana Wells, Imaging Supervisor,
Warren County Records Center and
Archives, Lebanon, Ohio

The AUTO-Carrier is ingenious!

— Duke University Library

Wow! Your team at e-ImageData really knows how to keep elevating your products and now with the new AUTO-Carrier and automating research of fiche and film. This is why we own 10 of your ScanPros.

— Jessica, Brigham Young University

* The 26 megapixel high performance camera uses advanced pixel-shifting technology to capture higher megapixel images. e-ImageData starts with its 6.6 megapixel image sensor, largest in the industry, to capture and integrate 4 unique optical images into a single 26 megapixel camera image, the clearest image in the industry.

SEE the Difference with the ScanPro All-In-One

ScanPro 2200 All-In-One
shown with roll film carrier
and AUTO-Carrier

*Do it all with the award-winning,
automatic, desktop conversion
scanner!*

The ScanPro All-In-One microfilm scanners provide all the capabilities you need to get your work done quickly and efficiently. Both an on-demand reader, scanner, printer for all film types AND a high-speed desktop conversion scanner for roll film, fiche and jacketed fiche, the All-In-One scanners save time and save money.

SCANPRO ALL-IN-ONE INCLUDES:

- **Base Model** — Choose the model that best fits your application needs (2200, 3000 or i9300)
- **Motorized Roll Film Carrier** —
 - UCC 510:16/35 Combination roll film and fiche/aperture cards
 - UCC 610:16/35/35M Cartridge combination roll film and fiche/aperture
- **AUTO-Carrier™** — Automatic scanning of fiche and jackets

- **ScanPro® Advantage Membership** — Experience advanced software such as AUTO-Scan® Pro and PowerScan Productivity Suite (PPS) with full access to updates and continuous upgrades. To retain these benefits, an active \$249 yearly membership is required. The first six months is automatically included for free.
